

page-break-before on a table row

Expected: rows 1 to 3 on this page and rows 4 to 6 at the top margin of the next page, each part with the table background and frame.

row 1	second column
row 2	second column
row 3	second column

row 4	second column
row 5	second column
row 6	second column

tcpdf pageBreak tag

Expected: the paragraph after the tag starts at the top margin of the next page.

Paragraph before the tag.

Paragraph after the tag, at the top of the page.

tcpdf pageBreak tag with a pagebreak attribute

Expected: one page break only: the paragraph after the tag is on the next page, which is not preceded by an empty page.

Paragraph before the tag.

Paragraph after the tag, on the page right after this one.

page-break-before on a paragraph of a block that starts low on the page

Expected: the second paragraph is at the top margin of the next page, not 100 mm down as on this page.

First paragraph, 100 mm from the top of the page.

Second paragraph, at the top margin.
